The world is your jury

OADR replaces passive classroom exercises with a live international arena. Students globally compete to resolve **real and simulated cases** across North America, Europe, Asia, and MENA through advocacy, mediation, and a participatory jury process.

Universal access to experience

By removing financial and logistical constraints, OADR makes practical ADR training universal and equal—globally. It's a great way to showcase your negotiation skills and establish your legal credentials based on the merit of your reasoning.

The revolution's already begun

And you can lead it.

Law students and graduates worldwide are signing up to resolve disputes on the PeopleClaim platform. With RHUbarb rewards and recognition for outstanding teams, your practical legal portfolio starts here. Join us.
